

PROJECT PROFILE

CALLIOPE SPORTS PARK

Calliope - Central Queensland
Local Government - Open Space Recreation

FAST FACTS

CLIENT	Gladstone Regional Council
SCALE	Cricket & Soccer fields, carpark and facilities
DISCIPLINES	
HIGHLIGHTS	<ul style="list-style-type: none"> ▪ Masterplanning of facilities ▪ Detailed Site Based Stormwater Management plans to achieve quality playing surfaces

JFP was commissioned by Gladstone Regional Council to complete masterplanning and detailed design of the Calliope Sports Park. The project included Cricket and soccer field, carparking and clubhouse facilities, as part of a public/private partnership.

After completing a detailed Site Analysis, JFP masterplanned the site and facilities based on drainage, access and amenity. Master Planning works included the siting of playing fields, buffer vegetation, bus and car parking, and new club house facilities.

In order to achieve high quality playing surfaces, JFP completed a detailed Site Based Stormwater Management Plan to address drainage issues across the site and to meet all council requirements.

Due to the close working relationship JFP has had with Council representatives, JFP has been able to adapt designs throughout the design development, to ensure that the final result is a design that is on that has been embraced by Gladstone Regional Council.
