Coomba falls is located in the Burnett Regional Council area and is a major tourist attraction to the region.

JFP were responsible for redesigning the existing carpark structure in order to provide additional carpark spaces and improved amenity.

JFP was also commissioned to complete the design of an outdoor educational precinct which incorporated signage relating to the local fauna/flora, geology and history. Seating and custom shelters were incorporated to provide comfortable learning facilities for school groups and the public alike. The facility was designed to sit amongst the natural bushland setting and made use of natural materials and finishes where possible.
