

PROJECT PROFILE

WHITE SHELLS

Maroola Beach - Sunshine Coast
 High Density Residential - Apartments

FAST FACTS

CLIENT	J Hutchinson
SCALE	46 residential units; 3 buildings of up to 5 storeys each
DISCIPLINES	
HIGHLIGHTS	<ul style="list-style-type: none"> Detailed construction survey set out of multiple buildings at one time on a daily basis Worked closely with project builder to achieve timely delivery of project

The White Shells Apartments Project, situated at Maroola Beach, consisted of three buildings each comprising of up to 5 residential levels and basement car parking. JFP was asked by the Project Builder to provide construction survey services for the development.

JFP's scope of works included the detailed construction survey set out, across all three buildings, at one time on a daily basis. This required JFP to provide services in a manner which was precise and responsive to the builder's needs so as to ensure the timely delivery of the apartment complex.

The successful completion of the project was evidence of JFP's ability to work effectively with Project Builders to deliver high density residential projects in a timely manner.
